

14FC Works Geotagging Mobile app –Telangana Guidelines

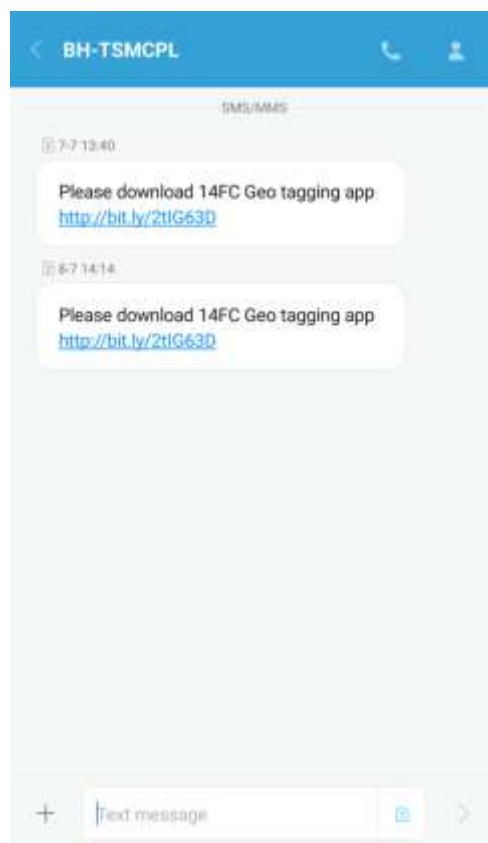

DOWNLOAD Directions:

Go to CDMA portal www.cdma.telangana.gov.in and go to section “14FC Geo Tagging app Download”. You will be redirected to below screen

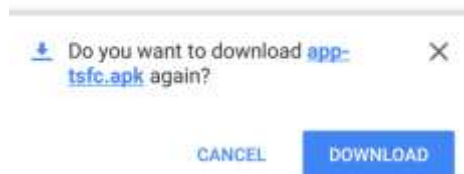

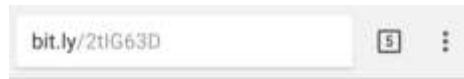

The screenshot shows a web form for downloading the 14FC Geo Tagging app. At the top, there is a header with the Government of Telangana emblem and the text: "Commissioner & Director of Municipal Administration Government of Telangana" and "14th Finance Commission (2015-16 to 2019-20)". Below the header is a form with a text input field labeled "Enter Your Mobile Number" and a "Submit" button.

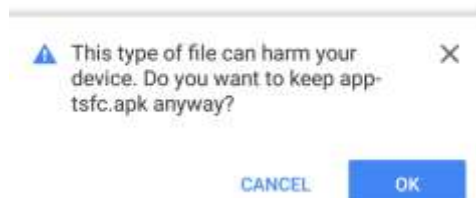

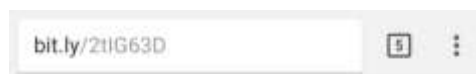

Enter your 10 Digit mobile number and submit. You will receive an SMS with download link

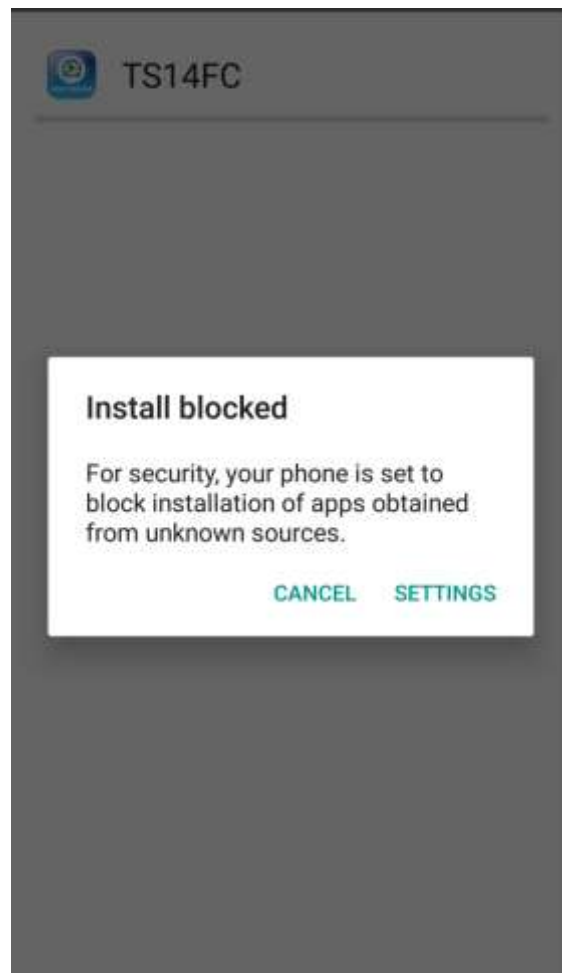

Click on the link in SMS received and open the same in Browser. Browser will prompt your permission to download file

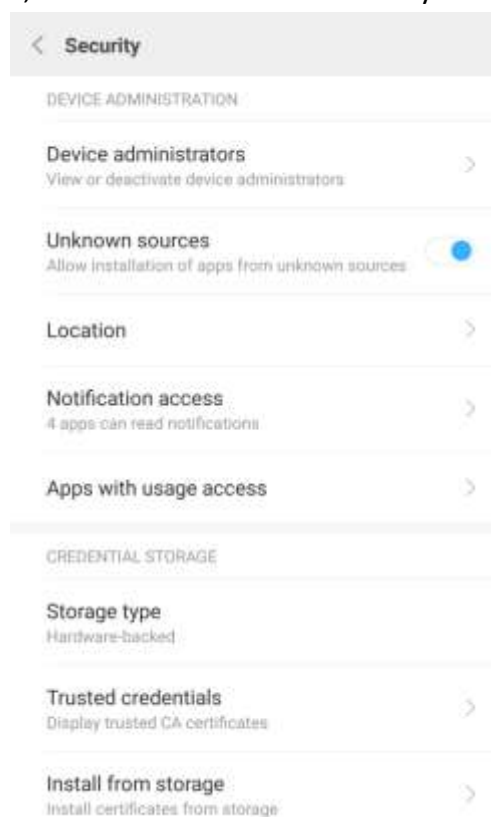

You may also be prompted with below message.

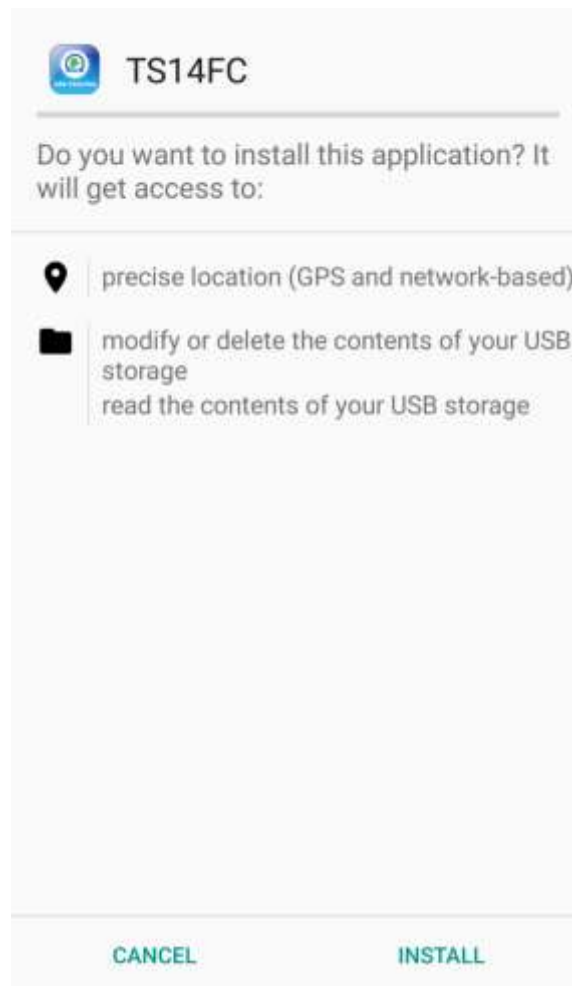

Click on "OK" and you may be taken to below screen

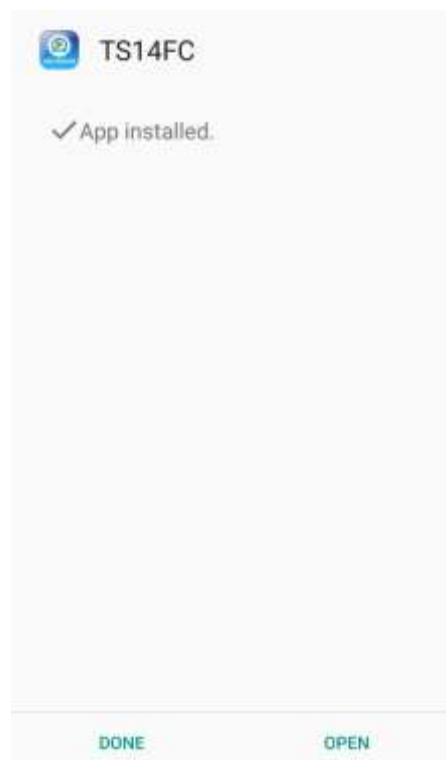

Go to "Settings", Enable "Unknown Sources" by selecting like below

As you download app click on the downloaded file

Click on "Install" and install in your mobile

APP usage Guidelines:

Required resources to use this app are as follows

- Android Mobile with at least Android Version 5.0
- Internet connectivity, preferably 3G and above
- GPS enabled mobile with camera
- Minimum 1 GB RAM and sufficient space for Images

Municipalities can geo tag each approved work. As works approved in Online ADP applications by CDMA office they will be due for Geotagging of work along with photo. Each work will have 3 stages as follows

1. A Photo before starting of the work (Where work is proposed)
2. A photo during the progress of work (As Work starts same work starts need to take a photo)
3. A photo after completion of work

For taking a picture and geotagging the location of work you need to download 14FC geotaging app from CDMA portal i.e www.cdma.telangana.gov.in

As you download you will have following screens

1. Splash Screen

Do not press anything and just wait for next screen

2. Login Screen

You will get login screen as below

CDMA
GOVERNMENT OF KERALA STATE

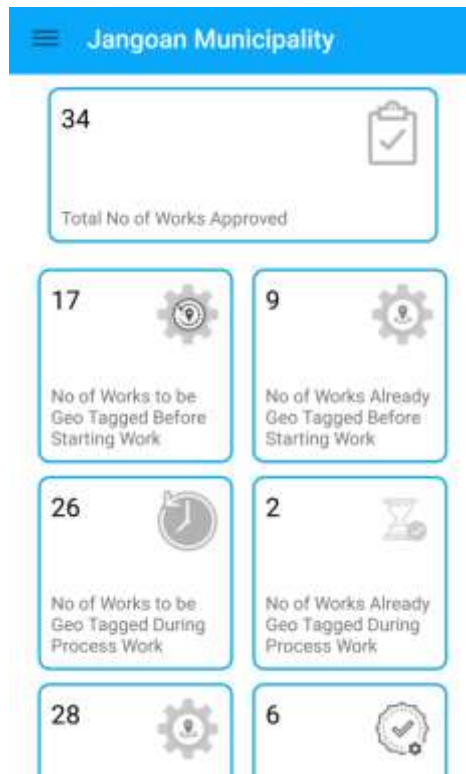

Enter UserName

Enter Password

Login

Enter your ULB username & password which you used to login to 14FC ADP Portal

3. Dashboard

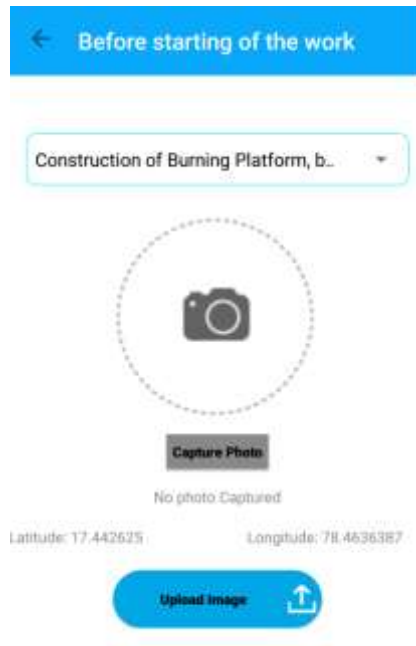

This screen shows total Number of works approved and also shows Works Geo tagged and to be geo tagged each stage wise. As you know there are 3 categories it shows total works above first and in down there are two boxes in each row. Left box shows the pending works to be geo-tagged and right box shows already geo tagged works. When you click on Works to be geo tagged you will get list of works pending to be geo tagged

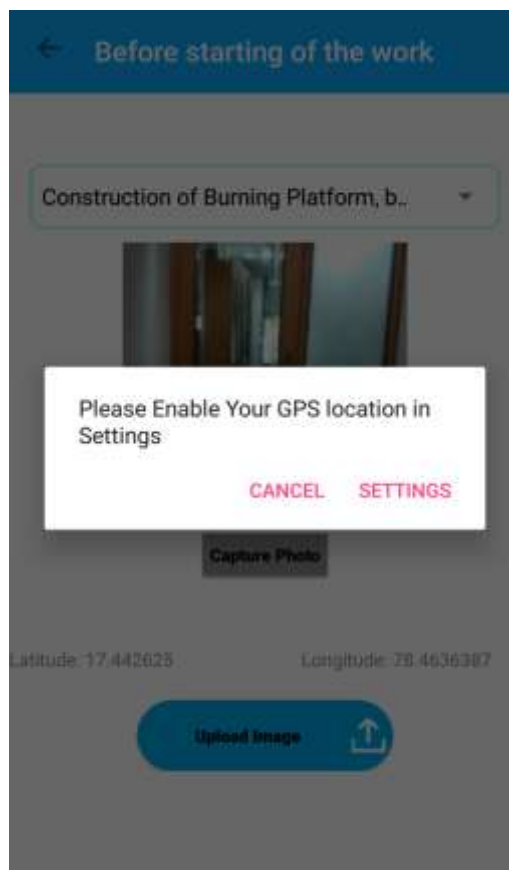

4. Pending geo tagging works list

Jangoan Municipality	
1	Construction of Burning Platform, bathrooms to Burial ground at Gundlagadda in Ward No. 6,7,8,14,15,16 of Jangoan Municipality (Photos Not Submitted)
2	Construction of Burning Platform, bathrooms to Burial ground at Sweepers colony in Ward No. 9,11,12,13 of Jangoan Municipality (Photos Not Submitted)
3	Construction of Burning Platform, bathrooms to Burial ground at Sriram nagar Hanamkonda road in Ward No. 1,2,6,7,10 of Jangoan Municipality (Photos Not Submitted)
4	Construction CC drain from H.No. 5-6-36 to end of lane in ward no.1 in Jangoan Municipality (Photos Not Submitted)
5	Construction CC drain from H.No. 6-3-25/1, H.No 6-3-27/2 to main road in ward no.2 in Jangoan Municipality (Photos Not Submitted)

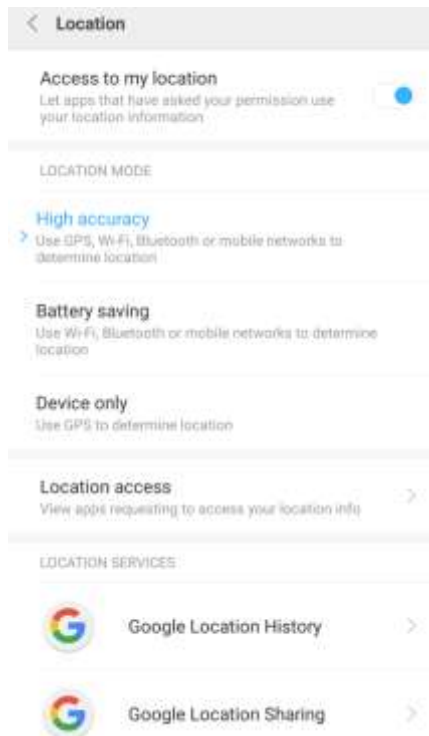

You will see each work description as you entered by you in 14FC ADP portal. Please click on the work you wish to geo tag. It will take you to image capturing screen as below

This screen will have pre selected work you had clicked and will also show Latitude and Longitude of your location. Please click on “capture photo” button to open camera

You may be prompted to select GPS settings. Select Settings and select “High Accuracy” as below screen

Once you select above option camera of the mobile will open to capture image. You can capture image and you will be prompted to confirm image capture. You can select right mark if you feel image not captured properly click on “x” and re capture image

You will see captured image with time & date stamp on image as shown below

← During Progresss of work

Construction CC drain from H.No.1-.. ▾

Capture Photo

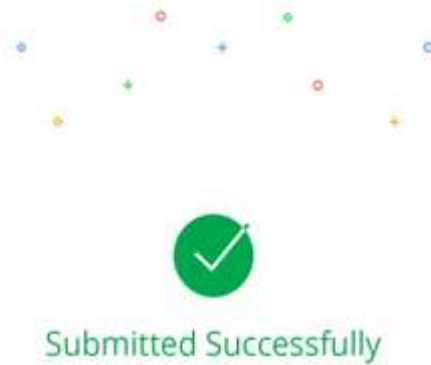

Latitude: 18.8291592

Longitude: 78.7180374

Upload Image

As you complete capturing you will get confirmation as below

As Image is submitted it will be submitted in local mobile and will upload to server at backend. Please keep you internet connection active to upload image at background and to see the status please check "Upload status" screen

5. Already Geo tagged works

When you click on already geo tagged works on dashboard you can see list of works and the details of work with geo tagged image and date & time of capture

6. Upload Status of each work submitted for geo tagging

In every page there is a Menu icon at top left corner. By clicking on it user can navigate to any page directly by choosing menu option from menu

There one of the options is to choose "upload status". Selecting that option will show below screen

Here you can see submitted photos, stage of work, submitted date & time and if image upload fails it shows the status and you can resubmit the same
